### **Finding Creativity during a Pandemic through Projects**

From Michelle: This presentation will be about how two photography/creativity projects-- "Seeing in Haiku" and "Trees of Provence" -- enabled me to reclaim some sanity during 2020. The "Seeing in Haiku" project pairs images I made with mostly original haiku. The "Trees of Provence" project marks a trip to France the summer of 2019. You'll get Tips and Ideas for you to start your own photographic creativity project.

[www.digitaldimensions.smugmug.com](http://www.digitaldimensions.smugmug.com)

They are displayed by both member name & by month. If for some reason you would NOT like your images (new or past photos) displayed on the website please let us know at the same email you use to submit.

## **\*DD&B Flickr Group\***

For any Flickr users, be aware that there is now a Digital Dimensions Flickr Group. We would encourage any members with Flickr accounts to join & post to that group, specifically photos that were taken at or related to DD&B field trips or meetings. The group can be found [here](#).

[Flickr](#) is a great place to show your photos and is an excellent resource for gathering feedback & for getting questions answered. It has a huge number of very active groups on almost any photography topic or subject you can think of and is worth checking out.
